Design Style	Minimalist
Style	New Classical

Product Features

MESS-FREE SUCTION PLATES FOR TODDLERS - Keep mealtime with your toddler mess-free and stress-free with our set of 3 JY silicone suction plates with lids. Our 100% silicone divided plates encourage independent eating without the mess. Place your suction plate on any flat surface for an extra secure grip that won't budge – you'll never worry about your child throwing, tipping, or tossing their plate again!

100% FOOD GRADE SILICONE - Our plates are 100% food grade silicone – there are no fillers or harmful materials that could leach into your child's food! Ultra-durable and unbreakable silicone is the ideal material for toddler dishes – no more cracked plates or spending money to replace them! Plus, silicone is a dishwasher and microwave friendly. Pop them in the microwave for a quick reheat, then toss them in the dishwasher for quick and easy clean up!

FOUR POINT SUCTION KEEPS YOUR CHILD'S PLATE IN PLACE - Four suction points keep your plate securely in place on any flat surface. This allows your child to be more independent while learning to self-feed without creating a mess – no more plates of food tipped over or thrown off high chairs! Unlike ordinary toddler suction plates that have only one suction point, our four point design makes it easy to remove your plate when your child is done eating without spilling food everywhere!

DIVIDED DESIGN FOR PICKY EATERS- Say goodbye to tantrums and arguments at the table! JY divided plates are perfect for picky eaters who don't like their food to touch. Raised edges allow your child to scoop food without pushing it off the plate or mixing it in with other foods on the plate. Plus, each section is the perfect size for toddler portions. Mealtime with your toddler has never been easier!

SATISFACTION GUARANTEED - Spend less time cleaning up feeding messes and more time bonding with your child at the table. Messy floors and tables are a thing of the past! We're 100% confident that you and your child will love our JY silicone suction plates.

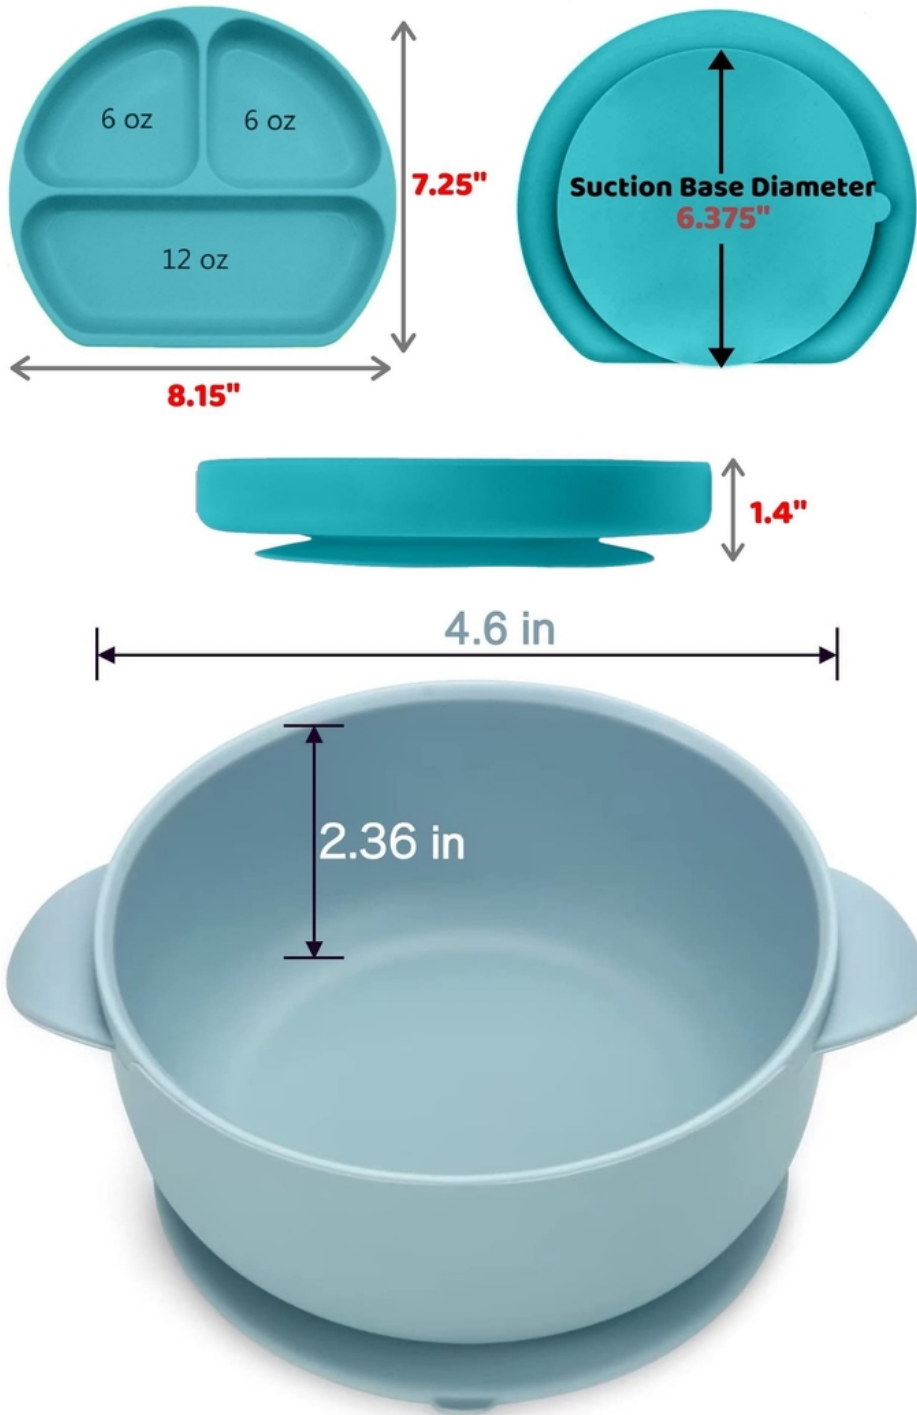

Product More Details

Designed in Sweden, this JY silicone suction bowl features a suction that keeps it in place, minimizing spills as your little ones learn how to feed themselves.

Care: Hand wash in warm, soapy water before use. Use on a smooth, dry and clean surface to ensure suction.
