Product Description

Silicone Suction Baby Bowl With Lid - BPA Free - 100% Food Grade Silicone - Infant Babies And Toddler Self Feeding

Product description

JY Bowl helps your baby develop necessary motor skills to become a confident independent eater. It is designed to provide excellent topple resistance without restrictions and easy scooping to guide food onto the spoon. Made out of 100% premium food grade soft silicone, JY Bowl helps your little one master self feeding skills safely while you can enjoy a complete peace of mind at your dinner table.

With its smart, practical and modern design, JY Bowl is a baby essential that lasts all the way through the toddler stage and childhood. It is a great baby shower gift or baby registry must have for expecting parents and a long lasting baby gift for boys and girls.

Product Features

Suction Cup Base: Compared with other products, we increased the baby bowls' suction cup base and made the edge more thinner.

Easy to Clean: Meal time cleanup has never been so easy thanks to microwave safe and dishwasher safe baby bowls. Or you just wash it under the running water.

Baby Safe Material: Your babies health is the most important to us; provide food safety standards (LFGB), BPA-free, lead-free, phthalate-free, latex-free, and non-toxic silicone material. Durable, not flimsy like plastic.

Correct Steps: For best result, using a bit of water under the suction and press two handles on baby bowl firmly on a smooth and flat surface when you use them.

Product More Details

SAFETY FIRST – JY baby feeding set is made from 100% food grade silicone, which is BPA, PVC, PHTHALATE, CADMIUM & LEAD FREE. The silicone part is microwave safe (up to 392°F), freezer safe (-104 °F) & dishwasher safe. It's tested by the CPSC accepted lab, and CPSIA & CSPA standards approved.

PACKING LIST – Ginbear baby eating set has 1 silicone baby bowl, 1 silicone baby bib & 1 baby feeding spoon. It's well packaged with a nice craft box. So, it's an ideal baby shower gift. It's also a great blw set for toddlers.

BABY BOWL – The silicone baby bowl has a big suction cup that could stick on most of the high chair tray and smooth flat surface. Our suction bowl has a raised edge designed. It could prevent some spills and keep food in the bowl. Also, the raised edge aids with the recollection of food during the meal.

BABY SPOON – Each baby tableware set includes a matching baby led weaning spoon to complete mealtime. Our baby feeding spoon is made of organic beech handle grips & food grade silicone scoop. It's safe, flexible and gum-friendly for your little one.

SILICONE BIB – The silicone baby feeding bib has a big food catcher that could stay open. So, it could catch most of the falling foods & drinks. The tightening buttons secure the silicone bibs well and make it harder for toddlers to pull it apart. It fits for the little ones in age of 6 ~ 60 months.
