Product Features

Food Grade Safety Silicone Material JY cake pan is made of high-quality food-grade durable silicone which is BPA Free and Eco-Friendly. It is safe used in microwave oven, oven, refrigerator and dishwasher. Temperature safe from -40°F to 446°F.

Silicone Molds for Baking The 6 cavity fluted tube cake pan has 3 different shapes - flowers, spirals and towers, and each cake mold has clear details and textures, which is very suitable for making delicious homemade cupcakes, muffins, brownies, biscuits, cheesecakes, soufflé, bread and more.

Upgrade Thick Bundt Cake Pan Nonstick Compared with ordinary baking molds, our silicone cake mold is thicker, has high toughness, is not easy to deform, and can be reused for a long time. Non-stick surface, easy to release and clean.

Good Idea Making dessert by hand is the most healthy and meaningful thing to do. This silicone mold will be a good helper for you to make delicious food. It is also a good gift for your family and friends.

Product More Details

BPA FREE & REUSABLE: Lollipop mold made of 100% pure food-grade silicone, BPA Free and tasteless. With super toughness, the lollipop mould with 20 balls are reusable and hard to deform. Heat resistant: -40°F to 446°F (0°C - 230°C). Safe for use in the oven, dishwasher, freezer, refrigerator and microwave.

FLEXIBLE & NON-STICK: The silicone cake molds is more convenient to use than the traditional one. It's soft and flexible, the food won't easily crack when you take them out. In addition, due to the non-stick characteristics, these muffin candy molds are easy to clean and dry, which is also dishwasher safe.

EASY TO USE & UNBREAKABLE: The silicone lollipop molds are very easy to fill, just assemble the mold and pour liquid from the small hole, even little kids can easily make candy or chocolate, perfect for DIY with the whole family; Don't worry if you accidentally hit, bump, or drop these candy making supplies, they are not broken, which allows you to use them for a long time without having to run for a replacement.

WIDELY USES - With lovely shapes of ball, you can make lollipop, chocolate, candy, gumdrop, jelly, ice cube, desserts, fat bombs, hard candy etc. You can also add extra vitamin C to help achieve additional health benefits. Take these chocolate candy molds and create more sweet candy to share with your family, friends or partners.
