Product More Details

[Healthy & Safe Material]: Made of 100% non-toxic food grade silicone Free of BPA, PVC, phthalates, lead, and cadmium. High-quality soft elasticity is not easy to break and can be bent and bite for a long time without breaking, classic travel & cute baby gift set can be carried with you.

[Baby Teething Toy]: 360 degrees graspable spherical design, our silicone sensory teething ball is made of non-toxic food grade silicone. The original design makes it easy for small hands to hold.

[Unique Design]: This multi-texture silicone sensory development ball for babies provides teething pain relief as it soothes your child's emerging teeth and calms sore and swollen gums. The genetic structure design allows the baby to suck and bite without any suffocation, regurgitation, and no penetration into the throat, making your baby more comfortable throughout the teething process. This is the best baby teething toy.

[Easy to clean]: Tactile and textured silicone ball helps in developing fine motor skills and hand-eye coordination; Easy to clean, wash with warm water and edible detergent when cleaning, then rinse with clean water, and then wipe with a clean towel before use. It is not suitable to use boiling water, steam, microwave oven, dishwasher to disinfect or clean, so as not to damage the teether.

[Why Choose]: To meet the baby's psychological needs for comfort and teething physiological needs, it can improve children's teeth occlusion ability. When the baby is frustrated, unhappy, tired, sleepy, or lonely, they can get psychological satisfaction and a sense of security by sucking on teething toys. More effective fixation of teeth and gum health, not only can improve the baby's desire to eat, but also increase the baby's ability to move. And the best gift for your baby
