Product Features

- Food Grade Material: Our trainer cup made of soft silicone BPA-, BPS-, PV-, phthalates-, lead- and latex-free, to help protect baby's developing teeth while allowing for a nonslip grip to make movements to the mouth more successful.
- Spill-Proof Lid Design: Our trainer cup come with spill-proof silicone textures straws, won't break when dropped. When your toddler tilts the cup, liquid will not come out through the lid.
- Safety Design: The training cup designed to fit baby's mouth and hands. Interior angle provides an even flow for safe drinking, Weighted base and tactile bumps provide stability and sensory awareness to decrease spills. Also safe to use with cold, warm and hot foods and liquids.
- Multifunctional Drinking Cup: The training cup with lid and straw can be used as a straw cup and an open cup at the same time.
- Baby Shower Gift: The training cup features a seamless design that is easy to wash and dry. Microwave safe, dishwasher safe, freezer safe and heat safe up to 428F/ 220C. The training cup for newborns is reusable, cute also easy to use, perfect for the ideal baby shower gift.

Product More Details

- You will get: the package contains 2 pieces of silicone straw cups in different colors, appropriate quantity can meet your baby's daily drinking needs, and you can also share with your friends who have baby
- Easy to use: the straw tilted to one side of the lid makes it convenient for the baby to drink water, and the firm and non-slip handles are easy for the baby to grasp; It is designed for the baby to learn to drink independently
- safe and seal: the silicone sippy cup is well sealed and does not break easily when dropped, and the threaded design between the lid and the cup makes it difficult for your child to open, but the mouth of the straw that is convenient for the baby to drink is not sealed; If it is turned upside down, a small amount of water may flow out, but there will be no serious leakage
- Reliable material: the baby drinking cup has rounded edges, and the soft silicone straw protects the baby's gums or developing teeth; The silicone material can withstand temperatures ranging from -40 Fahrenheit to 446 Fahrenheit, suitable for both cold and hot drinks
- Detachable design: the straw is detachable, allowing you to clean the cup easily, and the infant silicone straw cup is suitable for microwave and refrigerator use, dishwasher safe
