### Product description

Our Hot Water Bottle is made from advanced thermoplastic material, ensuring it is long-lasting and sturdy. Treats Neck and Shoulder Pain Relief, Headaches, Cramps, Back Pain, Sore Muscles, Injuries and more! Its versatility makes it an essential item for all seasons.

### Product specification

Special Feature	Yes
Application	Hot
Size	S, M, L
Tasteless	Yes
BPA free	Yes
Customized	Yes

### Product Features

- Made of food grade silicone with knit cover: This microwave heating bottle is made of food grade silicone that is soft and durable, BPA free and FDA approval. It can withstand low temperatures of minus 20 degrees and high temperatures of 120 degrees. It is dustproof, reusable, washable. But please do not use boil water or strongly corrosive liquid to wash the bottle.
- Heating in microwave oven: This silicone hot water bag can be heated in microwave oven with full cold water and it can be heated repeatedly. However for safe heating, please make sure to fill cold water fully and do not heat with knit. You should heat the bottle in less than 3 minutes. The microwave heating power must be less than 800W. And do not use light wave mode of microwave oven to heat it. If there is swelling during heating, stop heating immediately, do not open microwave immediately.
- Directly use with hot water or ice water: The hot water bottle can inject 80 hot water about 75% of the bottle to use it for hot compress or heat therapy directly. Please make sure to exhaust excess air from the bottle before you start to use. The filling nozzle is 22mm that is wide enough to inject water. And please be careful with the hot water when you are injecting. This bottle can be also used for cold compress. You can use cold water directly or put it in the fridge for some time.
- Small and light, easy to carry: Weight: 140g (4.94oz), Size: 105X50X158mm (4.13X1.96X6.22 inch), Capacity: 350ML (11.84oz). This hot water bottle is lightweight and portable. It is very comfortable and convenient to hold on the hand or in the bag, with perfect size and fashionable shape. It can be kept warm outside for about 3 hours, and can be kept indoors or in bed for 4-8 hours. It can also be used by children, but it must be used under the supervision of an adult.

### Product More Details

- [Premium Material] -- The product is made of high quality PVC material, non-toxic and odorless. Compared to the traditional rubber hot water bags, this one is more durable and longer lasting insulation. Note: Please do not use microwave heating.
- [Safe & Easy to Use] -- Hot water bags have passed 24 hours of explosion-proof and leak-proof test before leaving factory. BPA free material is more friendly to pregnant women, the elderly and children. Please fill two-thirds of 80 degrees of water into it.
- [Unique Design] -- The special pattern design on the surface of the hot water bag, high-quality raw materials, and exquisite craftsmanship, making the hot water bag has a more durable insulation effect.
- [Multi Functional] -- Hot water bag can be used as hot or cold compress for relieving muscle aches and pains, relieving menstrual cramps, sports injuries, etc. • Long-lasting Heat Retention: Unlike traditional hot water bottles, our innovative thermoplastic material provides superior insulation, allowing the hot water to stay warm for a longer period of time. Say goodbye to constantly reheating your hot water bottle and enjoy consistent heat therapy for hours.
- Secure and Leak-proof Design: The Hot Water Bottle features a secure seal and a leak-proof cap, ensuring that the hot water stays contained and prevents any accidental spills or burns. You can confidently use it as a heat pack without worries.
- Multi-purpose Usage: It can be used as a cold pack or an ice bag for soothing relief from swelling, sports injuries, or general cooling therapy. Its versatility makes it an all-in-one solution for various pain management needs.
- Caution: Made Of Natural Rubber Which Smells; To Reduce The Smell of Rubber Use Vinegar/Water Mix and Submerge For Min of 30min
