Silicone Non-stick Cookware Details

- Heat resistant & durable: The green kitchen set can withstand temperatures up to 446°F even if they are used in a high-temperature frying environment, they will not melt. The handles feel comfortable to hold, prevents heat transfer, so you don't have to worry about scalding the chef's hands. No more awful plastic melting into your food! Gone are the days of struggling in the kitchen. These green utensils are enough durable to extend the life of all your kitchen pans.
- The right approach: Bring out your inner chef with this elegant green kitchen tool kit that makes you own your kitchen. There is nothing better than that moment when you've got the right spatula or egg whisk in your hand for the very first time and you realize the secret of cooking is in the right tool for the job. We remember the first time we came across the right spatula to flip an omelet. Game changer. We want that for you too.
- Something better and exclusive: K&G was made in light of the fact that we needed something better. Tired of choices swinging from cheap & flimsy to too expensive to be sane, we wanted to create the feeling of being a chef without the price tag. We wanted kitchen tools that made us feel like kitchen heroes! You are a better cook than you imagine. You just need the tools to prove it! Now you have them. With the K&G green kitchen set, you can win meal time any day of the week!
- Odorless and easy to clean: This quality silicone utensil set is easy to wash, simply wipe under hot water. Washing hand recommend, the best way to clean these pink spatulas is gently rinsing in warm water circular opening at the bottom ensures that the kitchen cookware sets in the holder is always kept in a dry environment. These spatula set does not react with food or beverages or produce any unpleasant odor.
