Product Description

New Material Forearm Grip Workout Finger Stretcher Relieve Wrist Pain

Hand Grip Strengtheners Description

- No matter you're working or exercising, you are overusing your gripping muscles while under-using your expanding muscles.
- Expanding muscles are the muscles that open your hands. Lacking of training these muscles cause imbalances that hurt performance & can cause pain & injuries such as carpal tunnel syndrome and tennis elbow.
- If you are musicians, golfers, computer workers, tennis players, baseball players, rock climbers, weight lifters, or if you drive, text or type, Try our finger exerciser.
- Build Strength, designed to increase the strength of fingers, wrists and forearms. Improve strength for weak hands - Improves strength, prevents stiffness and relieves joint pain.
