

## Silicone Respiratory Trainer Compact Adjustable Resistance Breathing Trainer Device

Our Product Introduction

for more products please visit us on [siliconeproducts-factory.com](http://siliconeproducts-factory.com)

### Basic Information

- Place of Origin: China
- Brand Name: JY
- Certification: FDA, LFGB
- Model Number: JYA 9902
- Minimum Order Quantity: 50pcs
- Price: negotiable
- Packaging Details: opp bag, customized packaging
- Delivery Time: negotiable
- Payment Terms: T/T
- Supply Ability: negotiable

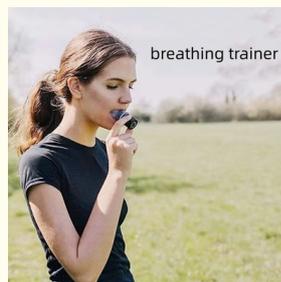

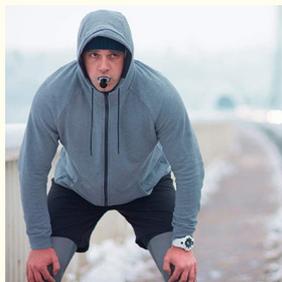

### Product Specification

- Material: Silicone + ABS
- Item Size: 5\*10cm
- Color: Blue, Black, Gray
- Weight: 70g
- Easy To Clean: Yes
- Type: Fitness Equipment
- Safety: Non-toxic And Non-slip
- Suitable For: All Fitness Levels
- Application: Breathing Trainer
- Highlight: **Silicone Respiratory Trainer, Silicone Breathing Trainer Device, Adjustable Resistance Breathing Trainer Device**

## Silicone Breathing Exercise Device for Adults Breathing Trainer Fitness Equipment

### Silicone Respiratory Trainer Description

The breathing exercise device is relatively easy to keep clean. Thanks to its screw-on design, the pure silicone structure separates into two parts ensuring it is cleaned with efficiency and ease. The flexible medical grade silicone mouthpiece is highly durable by design. Its heavy-duty components ensure that the breathing exerciser stays useful for years to come

### Silicone Respiratory Trainer Specification

Item Name	Silicone Respiratory Muscle Training
Product Size	5*10cm
Product Weight	70g
Number of Pieces	1
Suitable	All Ages and Fitness Level
Usage	Breathing Trainer

### Silicone Respiratory Trainer Features

- **PURE SILICONE STRUCTURE:** Crafted from super flexible pure silicone, our lung exerciser offers comprehensive respiratory muscle training for a diverse range of users. The compact design ensures comfortable and convenient use.
- **IMPROVES LUNG CAPACITY:** Elevate your breathing quality with the Inhale Respiratory Trainer. Boost stamina in respiratory muscles and enhance diaphragm expansion. Experience professional breathing training to optimize respiratory performance.
- **HIGH PERFORMANCE FOR ATHLETES:** Essential for sports enthusiasts, our breathing trainer caters to high-energy disciplines like athletics, running, swimming, gymnastics, martial arts, and outdoor activities. Achieve greater respiratory capacity for peak athletic performance.
- **PRACTICE BREATHING ACTIVITY:** Follow a simple regimen of practicing breathing exercises two to three times a day. Adopt a pattern of seven consistent repetitions of inhalation and exhalation, each lasting two minutes. Develop respiratory muscles and enhance breathing stamina effectively.
- **ADJUSTABLE RESISTANCE:** Tailor your training to your lung capacity and desired results. The breathing lung exerciser features adjustable pressure levels. Regulate the flow valve to find the perfect resistance for your training needs. Achieve optimal results with personalized resistance adjustments.
- **CLEAR COMPACT CARRYING CASE:** Now includes a clear compact carrying case for easy storage and transport, making it convenient to take your respiratory trainer wherever you go.

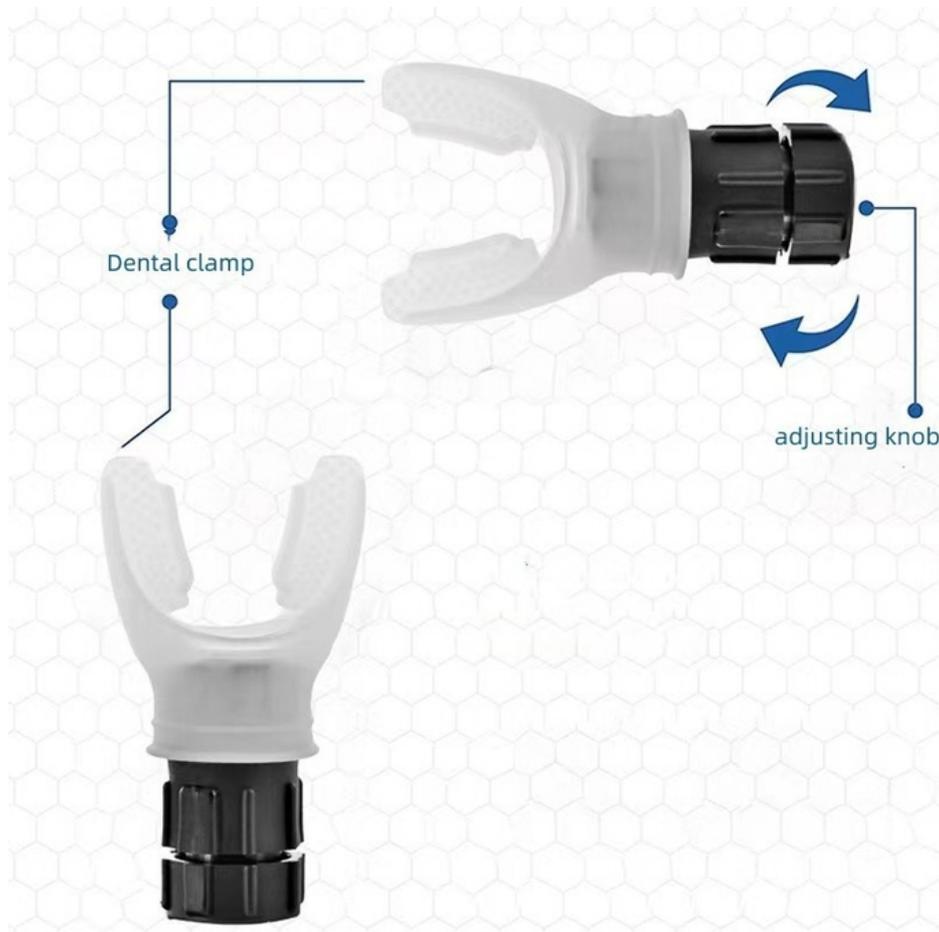

### Silicone Respiratory Trainer Details

- Strength training of respiratory muscles reduces shortness of breath and increases lung capacity.
- Almost anyone can use it without side effects.
- Small and compact, can be carried with you.
- Strengthen your respiratory muscles and abs with our breathing and lung exerciser device, ultimately enhancing your overall performances.
- The adjustable resistance makes the simplest task more difficult, and can exercise more intensely according to your needs.

### Silicone Respiratory Trainer Others

- **Improve Endurance:** Our breathing exercise equipment challenges you to improve your exercise performance and overall endurance.
- **Expand Vital Capacity:** Our device helps expand and improve your vital capacity without the need for excessive aerobic exercise or calorie burning.
- **Portable and Compact:** The Adventure lung breathing training instrument is designed to be highly portable and easy to carry.
- **Adjustable Resistance:** The device features an adjustable resistance dial, allowing you to make even the simplest tasks more challenging and customize your workout intensity.
- **Easy to Use:** The valve on our device allows for easy adjustment of breathing resistance, providing a user-friendly experience for individuals of all fitness levels.

LUNG FITNESS TRAINER

Lung Fitness Trainer Breathing Mouthpiece Respirator Exercise Equipment

Soft food grade silicone

Adjustable resistance valve

Detachable, easy to clean

# Lung Fitness Trainer

Lung Fitness Trainer Breathing Mouthpiece Respirator Exercise Equipment

# BREATHING TRAINING DEVICE

The exercise device is an exhalation and inhalation trainer. When using the product to exhale and inhale, the airflow will generate airflow resistance when passing through the breathing resistance valve, making exhalation and inhalation require greater strength.
