Our Product Introduction

Flexibility	High
-------------	------

### Silicone Car Phone Holder Features

- **Wide Fitment:** It is applicable to the installation of most smart phone car dashboard with different sizes on the market. Just put this car dashboard bracket on the car's center console. The overall silicone material will protect your phone and provide a good angle during use. Note that you need to press the bottom of the silicone pad to adsorb it on the countertop to avoid the bracket adsorption is not firm and slipping off.
- **Universal Silicone Gel Car Dashboard :** This silicone phone pad is made of silicone and has strong absorption capacity, so it is not easy to drop when driving. Simple design and small size make it easy to use, place and carry, providing great convenience for your life
- **Easy to Use :** This practical mobile phone holder is easy to use or clean, and it is nonmagnetic, without adhesive or glue. You just need to use a wet towel to wipe it. It is the same as new
- **Wide Application :** This mobile phone holder can be directly installed on the dashboard of cars, trucks, SUV, etc., or on any smooth surface, such as tables or tables
- **Special Design :** There is a hook design to hold the phone in a stable angle, and these two hooks can also be moved flexibly to fit various sizes of phone or other appliances

### Silicone Car Phone Holder Details

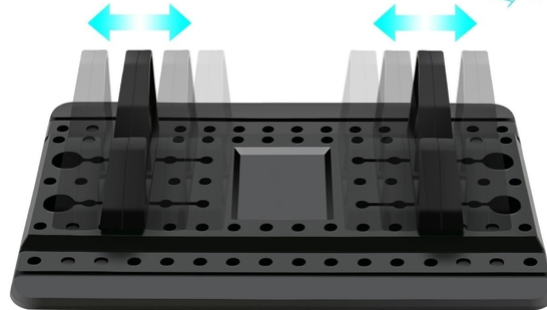

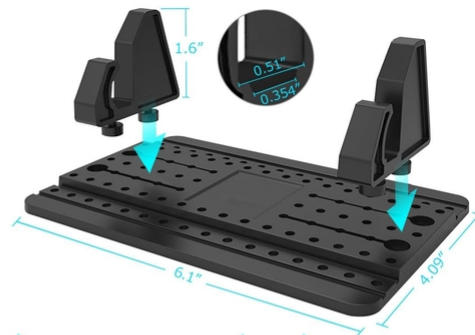

- **Wide Fitment -- Pad Size(L x W x H):** 17.5 x 10.5 x 0.5cm/6.9" x 4.1" x 0.2", **Mount Size(L x W x H):** 7 x 1 x 4cm/2.76" x 0.4" x 1.57. Suitable for most of different size smartphones in the car phone holder market. Just place this car dash holder in center console of the car, overall silicone material will protect your phone and provide a good angle while using
- **Multi-Functional --** Our phone mount for car can not only be used in the car as smartphone holder but also can be used to place other suitable items, such as glasses. And also in office room, bedroom, living room and other places to hold anything as it can
- **Adjustable as Wanted --** This dash car phone mount can adjust the width of mount to meet phone size or the ways of placement. But horizontally placement will be more stable than vertical. And there may be a little slide when you take a sharp turn, which is depends on your driving conditions
- **Shockproof & Non-slip --** The cell phone holder is with strong adsorption capacity, and equipped with anti-slip pad on the bottom, no need to afraid of falling even if take a sudden turn, ensure the safety of your equipment
- **Easy to Use --** Use directly after put, your phones can be put in horizontal and vertical ways. Wear resistance and durable, can be washed when it becomes dirty

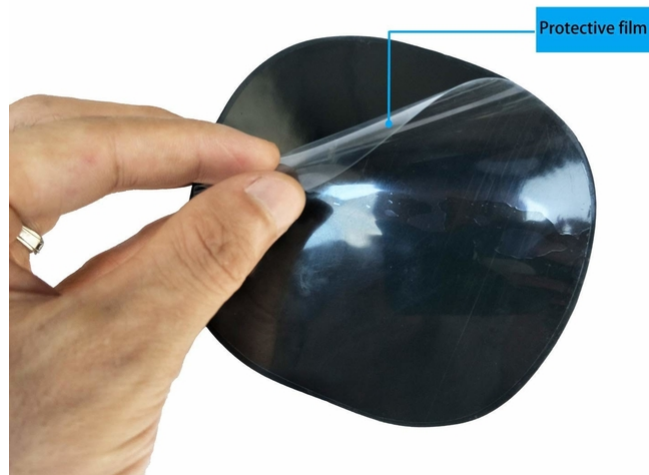

#### For 4-7" Phone

Two rubber holders can be moved freely to fit different size of devices

1. Before you use it, please remove the protective film from the bottom, then it will stick more firmly.
2. The bottom of the holder is made of soft silicone and is suitable for all kinds of panel surfaces.

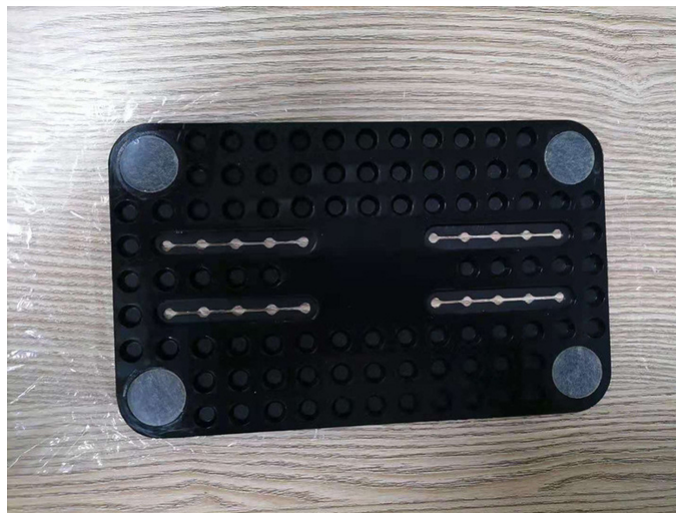

## One-Hand Operation

Easy to apply or release your device with one hand, avoid the danger of accidents.

When installing, try to tilt the phone to 15-45 degrees to make it easier to load. In order to ensure that the phone can be stuck, the material is made of soft silicone, which will not cause damage to your device.
