Product Description

Mini Ice Maker Cup Cylinder Ice Cube Mold Small Ice Cube Tray with Lid

Cylinder Silicone Ice Cube Mold Description

This ice cube mold perfect for making ice cubes or filling the molds with drinks, fruit, yogurt, jelly, chocolate. This ice cubes is made of food-safe silicone material, can be used for making adult and baby food, suitable for home, bar, party, etc. Made of material is safety and durability. It is easy to remove the ice cubes. The smart removable lid helps prevent the freezing of excess water. Keeps ice cubes from absorbing freezer odors.

Cylinder Silicone Ice Cube Mold Specification

BPA Free	Yes
Product Dimensions	8.5*9*8cm
Weight	140g
Number of Pieces	1
Dishwasher Safe	Yes
Color	Blue

Cylinder Silicone Ice Cube Mold Features

- Safe and Durable: The ice maker is made of food grade silicone and ABS material, no odor. Can withstand long term low

temperature storage without breaking, safe and durable. Good flexibility, not easily deformed by pulling.

- **Personalized Ice Bucket Machine:** Very practical and lightweight personalized silicone mini ice bucket. Pour half the water into the cup when making, only takes 3 seconds to complete the water injection, saving time. Then insert it into the silicone cup, gently press the bottom of the lid to expel the air, and put it in the refrigerator for a few hours.
- **Easy to Operate:** Slowly insert the inner cylinder with the cover into the silicone cavity, pay attention to turn it to the end and hold it down, then gently pinch the silicone surface under the cover, so that the inner cylinder is discharged from the float toward the inner cylinder.
- **Easy to Take Ice:** This Silicone ice cube maker cup, press the ice cup lightly, the ice cubes fall off and easy to use. Also can add warm water in the middle grooves, demould instantly. Holds to 60 about 0.5 in ice cubes, suitable for cool drinks quickly, but also guarantees about 10 minutes of ice time, too large ice cubes cool down drinks slowly, too broken smoothies will melt in one or two minutes, not durable enough.
- **Note: Important!!!** The white flocculation that appears in a few customers' ice cubes is because the water used in ice making is rich in minerals that precipitate at low temperatures and adhere to the ice cubes. If you don't like it, you can filter or boil the water, which will reduce this problem.
- **Space Saving:** Small and round shape, easy to place. No need for additional storage, after pressing the ice cubes, you can pour it directly into the water glass and enjoy it easily. Ice cubes can stored directly in the silicone cup, which is very convenient.

Cylinder Silicone Ice Cube Mold More Details

- **FOOD SAFETY MATERIALS** - The ice maker is made of food grade silicone and ABS material, no odor, BPA-free. Note: Our products are all new products. At the beginning, some products may have some unique flavor of food-grade materials, but it will not affect your health. Please rest assured to use them.
- **INDEPENDENT STORAGE DESIGN** - Our mini ice cube maker can be perfectly stacked in the refrigerator, and the effect is very good. This 2-in-1 ice bucket holds up to 60 ice cubes to provide longer cooling time for bottled beverages.
- **PERFECT LIFE STRESS RELIEF TOOL** - After the ice cube is successful, you can squeeze and knead the silicone ice bucket until all the ice cube is poured out, do not worry about the ice bucket variant, and release the stress in your life.
- **EASY TO USE** - Slowly insert the inner cylinder with the cover into the silicone cavity, pay attention to turn it to the end and hold it down, then gently pinch the silicone surface under the cover, so that the inner cylinder is discharged from the float toward the inner cylinder. Size of ice cubes: about 1.5cm*1.5cm*1.5cm.
- **MULTI-USE** - The ice mold can be used in indoor refrigerators, car refrigerators and outdoor mini refrigerators. It is also perfect for various occasions such as dinner parties, birthday parties, picnics, etc. Also great for RV living, camping and other outdoor activities. Simply squeeze the ice tray bucket to easily release ice cubes and ice cup storage.

SAFE AND DURABLE

This ice maker is made of food grade silica gel and ABS material, without peculiar smell. It can withstand long-term low temperature storage, will not break, and is safe and durable. Good elasticity, not easy to stretch and deform.
