Product Description

Silicone Ice Maker Silicone Bucket with Lid Cylinder Silicone Ice Cube Molds

Silicone Bucket with Lid Description

Easy ice cube maker buckets are a fun and efficient way to make and store ice. Simply squeeze the ice tray bucket for easy release ice and ice cup storage. The compact ice cube maker bucket is 5.5 inches tall and holds 96 mini ice cubes. A compact ice tray for freezer, RV kitchens, sailboating, and office fridges. Keeps ice fresh and sanitary. Lidded ice cube trays are stackable and great for bottom freezers. Enjoy a no spill ice cube tray that is covered to prevent ice cubes from absorbing odors from your freezer.

Our Product Introduction

Silicone Bucket with Lid Features

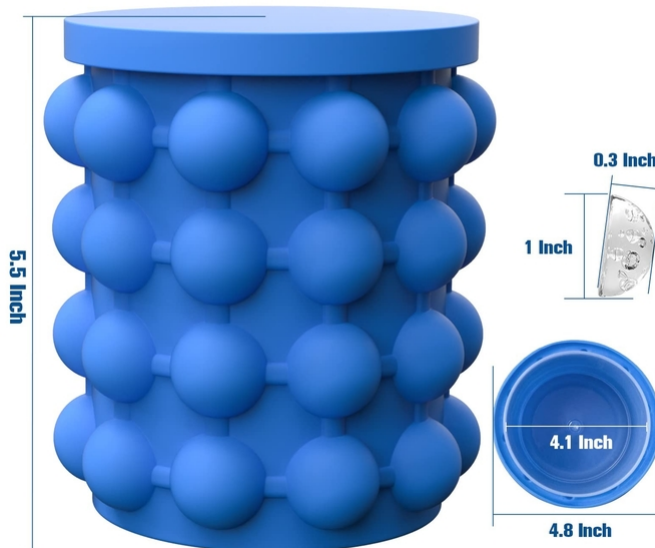

- Usage Add water slowly along the gap of the cup wall and the water level should be lower than the edge of the outer barrel. 2. Press the inner cylinder hard to make sure there is no water at the bottom of the ice bucket (Note: if there is water at the bottom, the inner barrel will float up) 3. Cover and place the ice bucket horizontally in the refrigerator for more than 4 hours 4. Take out the ice bucket, pinch and squeeze the ice bucket with water to drop the ice
- High quality materials Our large organ silicon 2 in 1 ice bucket and ice making mould are made of high quality food grade silicone, which can be used directly to eat frozen ice. This wine cooler and champaign cooler are best for Christmas party, Thanksgiving party and other party. The best back to school and off to college item.
- Multiple use Ideal for iced coffee, flavored ice and more in summer. The ice cube tray will provide you a pleasant mood to make ice. You will enjoy the ice-making experience.
- Portable The space-saving size is ideal for both outdoor and indoor use. You can go on a camping trip or have a picnic. It can add a lot of fun to your camp trip or outing.
- The Large Silicone Ice Bucket that comes with the ice cube trays is designed to make your life easier. It is made of soft, flexible silicone that is easy to clean and does not crack or break. With a large capacity, this ice bucket can hold enough ice cubes for your entire party. The bucket has a tight-fitting lid that keeps the ice cubes fresh and prevents them from melting too quickly.
- The Ice Cube Mold Ice Trays and Large Silicone Ice Bucket are perfect for making ice cubes for drinks, cocktails, smoothies, and more. They are also great for freezing small items such as fruit, coffee, and herb cubes. These trays and bucket are easy to use, and they are dishwasher safe, making cleanup a breeze.

Silicone Bucket with Lid Details

- 2 in 1 Ice Cube Mold - Aoutrow Ice Cube Mold contains silicone ice mold, inner storage cup and a lid. Squeeze the soft silicone bucket and easily remove the ice from cubes. The center cup is great for storing ice.
- Food Grade Material - Aoutrow Silicone Ice Bucket is made from BPA and odor free food grade silicone. It can make safe ice and provide you a cold drink in your camping trip or picnic.
- Efficient Ice Cube Maker - Aoutrow Ice Cup is 5.5 inches tall with a high-capacity of 72 mini ice cubes. It is enough large for you to share ice with friends and family.
- Multi Use - Aoutrow Ice Cube Mold is great for frozen whiskey, cocktails, fruit juice, iced coffee, wine and other beverages. It can be used in indoor refrigerators for daily use, small outdoor refrigerators for party use, and car refrigerators for picnic use.
- Usage - First, add water slowly along the edge. Second, press the inner bucket hard in order to make sure there is no water at the bottom. Third, close the lid and put the ice cube mold horizontally in the refrigerator for more than 4 hours. Finally, squeeze the outer silicone bucket, take out the inner cup and squeeze the ice bucket to drop ice. You can refill and freeze another batch for more ice.

EASY TO STORAGE

1 Pour one-third of the water and press the cup firmly

2 Cover the lid and place the bucket into freezer for more than 4 hours

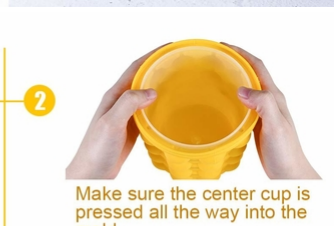

3 Gently squeeze the out wall to take out the center cup

4 Press the flexible chambers and ice cubes

1 Add water slowly along the gap of the cup wall

2 Make sure the center cup is pressed all the way into the mold

3 Cover and place the ice bucket horizontally in the refrigerator for more than 4 hours

4 Squeeze the outer wall

5 Take out the center cup

6 Press the flexible chambers and ice cubes

PLACE THE INNER BARREL, PRESS THE INNER CYLINDER HARD TO MAKE SURE THERE IS NO WATER AT THE BOTTOM OF THE ICE BUCKET
(NOTE: IF THERE IS WATER AT THE BOTTOM, THE INNER BARREL WILL FLOAT UP)

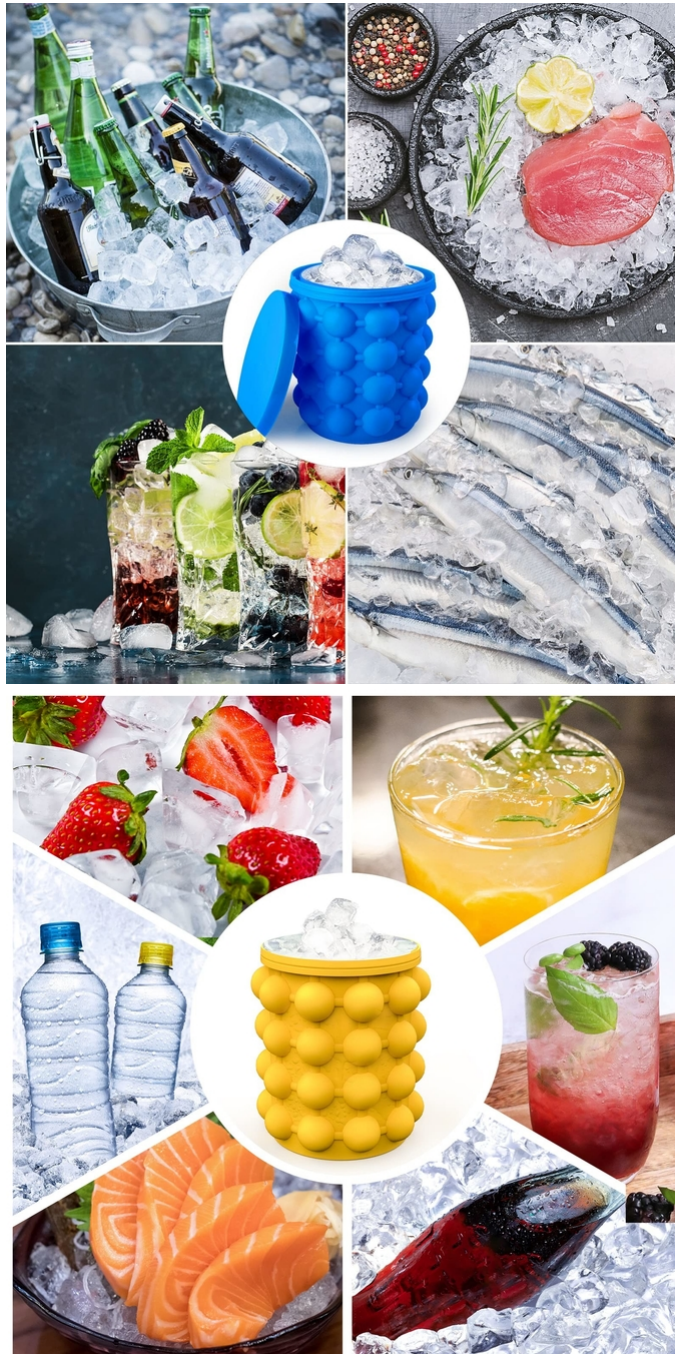

OR

ADD WATER SLOWLY ALONG THE GAP OF THE CUP WALL

TAKE OUT THE INNER BUCKET AND ADD WATER TO THE GREEN BUCKET
