Ruler Set Specification

Brand	JY
Feature	FLexible
Item Name	Soft Silicone Ruler Set
Number of Pieces	4
Function	Home/Office Stationery
Recommend Target Audience	All Ages , kids, officer

Ruler Set Features

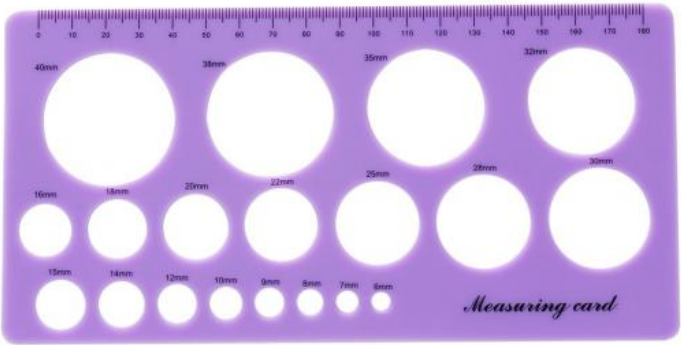

- Complete Set: You will get 4 pieces of math geometry tools, including a 12 inches/30 cm straight ruler, 2 pieces triangle rulers (30/60 and 45/90 degrees) and a protractor, complete set to meet the needs of basic geometry work
- Double Scale Ruler: The straight ruler and triangle ruler have inch and metric scales for the ease of all consumers and meet your different needs. Both sides of the protractor can measure 0-180 degrees, and the scale is accurate to 1 degree
- Soft and Bendable: This ruler set is made of soft quality PVC, which is flexible and bendable, can twist into many shapes and then it will return to its original shape when laid flat, easy to hold it to draw lines along irregular surfaces
- Wide Applications: Shatterproof plastic ruler can be used widely in school, home, office and many other occasions you want. Great studying tool and measuring tool for you and brings great convenience to your drawing or measurement work
- Ideal Gifts: These flexible rulers have bright color matching and clear scales, and can be bent at will. It will not accidentally hurt your hands without sharp edges, which is a practical gift to students, teachers, designer, family, friends, and more

Ruler Set Details

- 【Exquisite Material】 The nipple measurement tool for flanges is made of high-quality silicone material, which is soft, safe and comfortable, can be bent and crumpled, has good ductility, and will return to its original shape after loosening, no burrs, will not scratch the skin, and durable.
- 【Designed for New Mothers】 Our nipple flange measuring tool can help you quickly determine the correct and suitable size, so that you no longer have to be entangled and confused when choosing the breast pump flange or shield size, and provide new mothers with a comprehensive azimuth support and protection.
- 【Two Ways to Measure】 The first one: put your nipple into the suitable hole (try from large to small), no need to force it comfortably, the corresponding circle size is your correct size. The second is to use the scale on the edge to measure with a mirror or photo.
- 【Powerful Function】 Use our nipple measurement tool for flanges to find the right breast pump flange for you, avoid pain when pumping, and at the same time promote better milk flow to maximize milk production and meet Your baby's daily nutritional needs.
